

SYNTAX

Code. Create. Collaborate

Brochure

WHAT IS SYNTHAX?

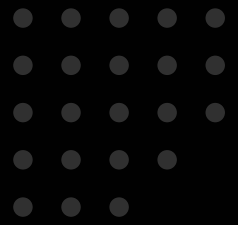

Synthax isn't just a hackathon, it's a **movement powered by students, for students**. The goal is simple, to give students a space where they can explore their creativity, work on hands-on projects, solve problems through coding, and learn from people who've been where they are now.

Our Purpose

We empower the next generation to embrace tech with creativity, teamwork, and real-world problem solving.

Whether you're a beginner or a budding techie, Synthax is your launchpad into the future.
